

Clear Horizon

CURRICULUM VITAE

Froukje (Frankie) Jongsma, Principal Consultant

Overview of Expertise

Froukje brings over 20 years of experience in social impact work. From 2016 onwards her focus has been on leading place-based systems change and building the capacity of cross-sector stakeholders including citizens to collaboratively tackle complex social issues in their communities. Froukje is adept at facilitating complex social impact projects, programs, and processes from beginning to end including the design and delivery of Measurement, Evaluation, and Learning (MEL) approaches. She also has extensive experience supporting people and organisations to develop a deep understanding of the issues they are aiming to solve to help them determine the right strategies and action to achieve sustainable results.

Froukje has worked in government, not for profit, and community contexts in Australia and overseas and has vast experience applying systems change and place-based approaches such as Collective Impact. She is particularly passionate about making MEL accessible, relevant, and empowering. She does this by proposing and co-developing approaches that meet the needs of the clients, collaborations, and communities she works with. A key highlight of her career has been co-leading the Connected Beginnings Collective Impact work in Galiwin'ku together with Yolŋu leaders.
