

## CURRICULUM VITAE

### Riannon Rose Murray, Senior Consultant

#### Overview of Expertise

Riannon is an M&E specialist with significant experience in the environmental and sustainability sector. She has deep familiarity with disaster recovery, resilience and grants programs and has held evaluation advisory roles in local and state government in NSW, bringing with her a strong understanding of the workings of government. Riannon's contributions have included coordination and delivery of evaluation projects and activities, specialist and strategic advice to support evaluations of grant programs, and development and implementation of evaluation frameworks, plans and performance measures.

She is a skilled researcher with the ability to undertake data and information analysis and high-quality reporting. Riannon is also adept at facilitating learning and reflection processes and communicating lessons learnt and leading the collaborative development of recommendations to inform program improvements.

Riannon also has experience in the community development sector having delivered community recovery initiatives for local government in NSW. She also has experience in the international development sector, having worked for the Friends of the National Parks Foundation and the Australian Embassy in Indonesia.
